Orchid Growers & Importers

BRAZILIAN PRICE LIST

Sole Agents in the United States
for

ORQUIDEARIO CATARINENSE
CORUPA - SANTA CATARINA - BRAZIL
-Since 1906-

South America's Largest Orchid Growers and Exporters
- - - - -

General Price List of Blooming Size Hybrids - Natural Species - Rarities in General

The prices on the plants listed are retail. Special prices will be sent to any grower who wishes to order 10 plants or more of one specie or 5 plants or more of certain varieties. All prices are F.O.B. Brazil. Shipments can be made in about 2 weeks after the order is received from us.

All plants offered are guaranteed to be of first class quality, blooming size and in good condition.

All plants will be imported by air express through the port of Miami, Florida. If the customer allows us to forward the plants via air express from Miami we will be able to guarantee safe arrival and any plant that arrives dead will be replaced.

On orders of not less than 30 plants there will be an extra charge of \$0.70 per plant to cover all expenses and air express charges to Miami. On orders of less than 30 plants the charge will be \$0.80 per plant. Shipments from Brazil cannot be sent air express collect.

All plants will be imported under our permit, inspected at Miami and forwarded by our agents direct to you, C.O.D. for shipping expenses from Miami, brokerage and customs charges. You do not need an import permit and you are free of all details with United States Customs. We do not charge for our importing services.

For shipment in about 2 weeks we cannot accept orders for less than \$200.00. However, for customers who do not mind waiting for shipment we can accept smaller orders for \$25.00 or more and make shipment as soon as we have enough orders to total \$200.00.

Payment for plants and shipping expenses should be sent to us with order. We will not in any case ship C.O.D. for the cost of the plants or shipping expenses from Brazil to Miami.

Any customer who wishes to cancell his order must allow us 15 days to contact our exporter. In the event that the shipment is already in transit at the time the exporter receives the cancellation the customer will be responsible for the plants and will have to accept them when they arrive. We will be unable to make a refund in this case.

FINCK FLOPAL CO.

R #12, Box 287

Kirkwood 22, Missouri

The first part of the report deals with the general situation of the country. It is a very interesting and informative study of the country's development. The author has done a great deal of research and has gathered a wealth of material. The report is well written and is easy to read. It is a valuable contribution to the study of the country's development.

The second part of the report deals with the economic situation of the country. It is a very interesting and informative study of the country's economic development. The author has done a great deal of research and has gathered a wealth of material. The report is well written and is easy to read. It is a valuable contribution to the study of the country's economic development.

The third part of the report deals with the social situation of the country. It is a very interesting and informative study of the country's social development. The author has done a great deal of research and has gathered a wealth of material. The report is well written and is easy to read. It is a valuable contribution to the study of the country's social development.

The fourth part of the report deals with the political situation of the country. It is a very interesting and informative study of the country's political development. The author has done a great deal of research and has gathered a wealth of material. The report is well written and is easy to read. It is a valuable contribution to the study of the country's political development.

The fifth part of the report deals with the cultural situation of the country. It is a very interesting and informative study of the country's cultural development. The author has done a great deal of research and has gathered a wealth of material. The report is well written and is easy to read. It is a valuable contribution to the study of the country's cultural development.

The sixth part of the report deals with the future of the country. It is a very interesting and informative study of the country's future development. The author has done a great deal of research and has gathered a wealth of material. The report is well written and is easy to read. It is a valuable contribution to the study of the country's future development.

The seventh part of the report deals with the conclusion of the study. It is a very interesting and informative study of the country's development. The author has done a great deal of research and has gathered a wealth of material. The report is well written and is easy to read. It is a valuable contribution to the study of the country's development.

The eighth part of the report deals with the bibliography. It is a very interesting and informative study of the country's development. The author has done a great deal of research and has gathered a wealth of material. The report is well written and is easy to read. It is a valuable contribution to the study of the country's development.

The ninth part of the report deals with the index. It is a very interesting and informative study of the country's development. The author has done a great deal of research and has gathered a wealth of material. The report is well written and is easy to read. It is a valuable contribution to the study of the country's development.

The tenth part of the report deals with the appendix. It is a very interesting and informative study of the country's development. The author has done a great deal of research and has gathered a wealth of material. The report is well written and is easy to read. It is a valuable contribution to the study of the country's development.
